www.rajhanstechnocraft.com

PROFILE

Rajhans Technocraft (An ISO 9001:2015 Certified Company) started its business in the year 2015 as a partnership firm in the Industry. In the short span of time, we have successfully achieved an eminent position in the Industry. We providing wide range of Telescopic Channel, Auto Hinges, Gas Spring, Tendon Box Drawer System, Kitchen Accessories, Bed lifter, Foldable Table Brackets, Wardrobe Sliding Door System, Wardrobe accessories, Multipurpose Lock, Tubular Lock with **RAJHANS** brand. The **RAJHANS** has captured the hearts of the consumers across the nation and based on popular demand it has been slowly adding new products and services to its portfolio. Our product range manufactured using high grade raw material such as Cold Rolled Steel (CRC) and Stainless Steel, and are widely appreciated for application specific design, durability and tensile strength. We use excellent quality basic materials and cutting edge technology to manufacture these products. Smooth surface, metal finish, cost effective rates and quality assurance are the few of the factors that make our customers love our offered products.

Our products are acknowledged for the following features finest finish, durability, anti-corrosion, long life, reliable etc. Our wide range helps the clients to choose the best product, in quality and design. Since our foundations, we are engaged in offering best quality handles to our customers and emerged as best option in the market to our patrons. We are working under the leadership of Mr. Bhavin Sorathia and Mr. Nirav Sorathia.

QUALITY

Rajhans Technocraft take every possible measure to maintain the highest quality standards. We use high quality raw material in the manufacturing of the products as per ISO standards. We use excellent quality basic materials and cutting edge technology to manufacture these products. Smooth surface, metal finish, cost effective rates and quality assurance are the few of the factors that make our customers love our offered products. Our quality controllers examine the offered range against predefined parameters of quality to offer a defect-free range and to achieve maximum client satisfaction. Quality analysts closely monitor the range, and use advance testing facilities to ensure all products are completely defect free.

RAW Material Inspection :

All materials are inspection for mechanical and chemical properties by verifying their certificates as per established norms.
